

Adam Trojanowski joined Altieri in 2004 as a senior mechanical engineer, after nine years with Ove Arup & Partners, in New York and London. He was made a Principal in 2011. Adam has considerable expertise in the design of specialty mechanical systems for highly-controlled environments and architecturally challenging projects such as the Barnes Foundation in Philadelphia and The Obama Presidential Center in Chicago.

Adam advances Altieri's museum HVAC design philosophy through the pursuit of low-energy, sustainable design methods. His exceptional organization skills are key to the long-running relationships he has developed with our clients, and the overall project guidance he provides ensures that Altieri's designs prioritize the quality, character, and integrity of the architecture and maintain the architect's vision as our paramount intention.

Adam teaches a course in Systems Integration at Yale University's Graduate School of Architecture.

Education

Carnegie Mellon University, 1995
Master of Science
Civil & Environmental Engineering

State University of New York, 1994
Master of Science
Mechanical Engineering

State University of New York, 1992
Bachelor of Science
Mechanical Engineering

Registrations

Professional Engineer-Mechanical
Connecticut, Illinois, New Hampshire,
New York, Texas, Vermont

Professional Affiliations

U.S. Green Building Council
ASHRAE
CIBSE

Presentations

Healthy Buildings: What You Need to Know About Indoor Air Quality and Your Building Systems, Building Museums Symposium (MAAM), 2021
