

Stephen L. Carpino Senior Associate

Stephen Carpino has been with Altieri since 1984. He has designed environmentally responsible mechanical systems for many significant building projects. He is also a senior member of Altieri's field construction administration team.

Steve's responsibilities have included conceptual design, production scheduling and coordination, detailed engineering calculations, specification preparation, construction administration, and client interface. As Project Manager on various projects, he is responsible for the execution of design principles established by the Design Lead.

Steve represents Altieri with expertise in the field just as he represents the nation as a proud United States Air Force veteran.
